REVOCATION AND POWER OF ATTORNEY

The Government of the United States of America, as represented by the Secretary of the Department of Health and Human Services (“Assignee”), c/o National Institutes of Health, Office of Technology Transfer, 6011 Executive Boulevard, Suite 325, Rockville, MD 20852-3804, represents that it is the true owner of the entire interest in U.S. Patent Application No. 09/743,825, filed on January 16, 2001, for PB39, A GENE DYSREGULATED IN PROSTATE CANCER, AND USES THEREOF (hereinafter “above-identified application”) by virtue of and as evidenced by the Assignment (a copy of which is attached) filed February 3, 2004.

All previous powers of attorney and authorizations of agent are hereby revoked, and the undersigned hereby recognizes the National Institutes of Health, Office of Technology Transfer, and Venable LLP as attorneys of record in this case, Customer Number 45323.

The assignee requests that correspondence concerning this application be directed to Venable LLP, P. O. Box 34385, Washington, D.C. 20043-9998

The assignee also requests that all telephone calls be directed to Thomas Wiseman at (202) 344-8300.

The evidentiary document(s) accompanying or referred to above have been reviewed by the assignee and it is certified that, to the best of assignee's knowledge and belief, the claim of title from the original owner to the present assignee is complete and title is currently in the name of the assignee.

The assignee's representative certifies that he/she (whose title is supplied below) is empowered to act on behalf of assignee.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.

Done, this 17 of August, 2004.

Thomas P. Clouse, Esquire
